New Book

The Diver and the Pearl; story by Meher Baba and Hafiz, art and poetry by Marla Faith and guests. A short parable by Hafiz is retold by Meher Baba, and then illustrated with colored pencil drawings by Marla Faith. Several other artists have also contributed their work in this section: Mindy Tiberi, Joe DiSabatino, Tom Riley, Jean Vigodsky, Ingka Hella Charters, and Michael Childs. The next half of the book contains Marla's art (paintings, drawings, collages) of Meher Baba in realistic and imaginary styles, as well as her poetry about Meher Baba. This is an uplifting book of beautiful images and mystical poetry and story. The book has been a work of love from Laurent Weichberger at OmPoint Press, and Karl Moeller, book designer. It can be purchased directly from [Amazon](#), and [Barnes and](#)

Birth Charts

Jupiter, courtesy NASA

I think of the birth chart as a sort of map of the sanskaras we were born with. It doesn't tell the future, rather it shows the talents and potentials we brought over from our previous lives. It also points out the areas we need to work on to attain poise, balance and harmony. Understanding a birth chart requires a joint effort, a willingness to share your experiences and insights.
